One dog gives birth to 10 puppies...

$1,250 \times 10 = 12,500$ future lives saved, but

DO THE MATH...

If one dog goes unfixed, her litter of 10 creates another 100 puppies,
100 becomes 1,000 & 1,000 becomes 10,000.

ALL FROM ONE UNFIXED DOG

There's no better time than now for you to get your pittie spayed or neutered so they no longer contribute to Kern County's pet overpopulation problem.
